

W-T STRUCTURAL ENGINEERING CAPABILITIES

PROJECT GUIDANCE THROUGH EVERY STAGE OF DEVELOPMENT

Our engineers know that no challenge is too difficult. With total access to the skillful staff in the W-T Engineering, Inc. Family of Companies, clients are assured that project answers are furnished in an expedient and cost effective manner. W-T Structural Engineering, LLC project managers and engineers work to fully understand a client's goals and objectives to ensure plans are sound from the start. To also ensure complete project compliance, we carefully evaluate state and federal jurisdictions as well as local codes and ordinances. Our team of Structural Engineers (SE) are licensed in more than 40 states and are members of several professional design associations.

As a full-service civil and structural engineering firm, W-T Civil Engineering, LLC provides the necessary administrative leadership to make sure every aspect of a project is accomplished. From an initial schematic site plan to securing the final certificate of occupancy, W-T Civil Engineering, LLC guides each individual design through every stage of development.

THE **WT** FAMILY OF COMPANIES

W-T Engineering, Inc, is a family of companies that creates a full service consulting engineering firm. For over 40 years, we have been serving developers, municipalities, park districts, architects and corporate clients with innovative and economical design solutions for their developments. Our extensive experience and professional relationships we have built over the years with the municipal, county and state engineering departments differentiates us from the competition. We continually remain current, competitive and "state-of-the-art." Find out today, how we can provide you with, One Source. Infinite Solutions.

ONE SOURCE. INFINITE SOLUTIONS.

W-T STRUCTURAL ENGINEERING ADVANTAGE

CREATING A SOUND PRODUCT BY CONCENTRATING ON THE SUPPORTING PARTS

Our size, project capabilities and access to experts in each of the ten W-T Family of Companies disciplines is what distinguishes W-T Structural Engineering from competitors. We are a mid-size civil engineering firm with ample resources to complete large projects; yet small enough for each team member to be involved in the product outcome. We act as a true consultative partner to lead clients through business development, growth and change.

We operate the newest office software: Auto CAD Civil 3D, SiteOps, Revit and Agtek to aid us in delivering our clients with the industry's most advanced solutions. Each of our projects receives design and management input from our experienced leadership. This approach has helped us retain many clients for 20 years plus.

As structural and civil engineers, we understand the soundness of a final product relies on the strength and stability of each contributing part. Our attention and detail paid to the hidden supports—years of experience, quality materials, and unique business model—shape the client experience into a positive one.

THE W-T FAMILY ADVANTAGE

W-T Structural Engineering, LLC is part of the W-T Engineering, Inc. family of companies. W-T Structural Engineering, LLC is an independent company, but benefits as a member of the W-T Family, each offering stability and support without professional influence. The Family may be utilized as subcontractors or as the lead on projects when appropriate.
